

This document is for dividing the work on the actual report (everyone works on everything, of course, but some people will do more work on certain parts):

Title

Julia Gonzalez, Anna Weber, Emily Wilbur

i. Abstract

ii. Introduction

- a. Overview and goals
- b. Findings from Oerleman 2005 and other papers
- c. Possible expectations

iii. Methods

- a. Which papers were utilized and which model did we start with
- b. What we did to complicate the model
- c. What various parameters mean and do

iv. Results

- a. Results
- b. Results vs expectations

v. Discussion

- a. Celebrate the results
- b. Talk about where we definitely succeeded
- c. Talk about where we may have gone wrong

vi. Conclusions

- a. Actual conclusions
- b. Recommendations for further modeling and research

vii. References (possibly annotated)
